

Symbol MC35手持终端

Symbol MC35移动电脑具备完整的手机功能，
内置 GPS 接收器，运行 Windows Mobile 5.0，
支持蓝牙。

Keep your on-the-move workers connected, responsive and productive with the little device that offers big business functionality. This single pocketable device puts the combined power of a mobile phone, laptop, camera and bar code scanner at the fingertips of your employees, in a durable device that offers a product life that well exceeds that of the traditional consumer smartphone or PDA. And the convergence of voice and data translates into one device for employees to carry and one device for IT to manage — simplifying your mobility architecture and your capital and operational costs.

Features and benefits of the MC35:

Highly flexible voice functionality includes 1-to-1 and 1-to-many voice calls with speakerphone, headset and push-to-talk modes

WWAN/WLAN/WPAN capabilities keep workers inside and outside the enterprise connected — from salespeople in the field to managers on the retail floor

Robust mobile data capabilities include email, instant and text messaging, image capture and bar code scanning

The latest in computing platforms provides the power to support nearly any enterprise application — with over 45 tested and validated applications available today

Business-essential durability — passes Symbol's industry leading drop and tumble impact tests

Features	Benefits
Business-essential durability	Ability to withstand everyday use in a variety of environments
Tested and validated vertical applications	Many enterprise applications enable robust functionality out-of-the-box; significantly reduces application development time and costs
Intel's latest processor: XScale PXA270 @	Desktop-like multimedia performance with lower power

416 MHz	requirements
Microsoft's latest operating system: Windows Mobile 5.0 Phone Edition	Comprehensive voice and data enterprise functionality, including multimedia support, persistent memory
Speakerphone, headset and push-to-talk functionality	Flexible voice communication options to meet the needs of any business environment
WWAN: EDGE GPRS/GSM compatibility	Voice and high-speed wireless data
WLAN: 802.11/b/g	Cost-effective data connectivity in the office
WPAN: Bluetooth v1.2	Wireless modem, printing synchronization, and more
GPS radio	Supports a wide range of value-add location-based services and applications
High quality speakerphone, microphone and transducer	Outstanding voice quality and performance
Integrated high-resolution 2MP camera; macro focus; LED flash	Enables on-the-spot high-quality imaging, enabling the capture of documents as well as 1D and 2D bar codes
2.8 in. QVGA color screen	Easy to view in any lighting
User accessible SDIO card	Ample power for full shifts in nearly any environment
Multiple battery options: standard and extended	Ample power for full shifts in nearly any environment
Touch screen and optional keyboard functionality	Allows multiple data input methods to maximize application functionality and serve user preference
