Intermec SD61 Wireless Base Station

The SD61 allows you to more easily manage your Bluetooth scanners. This secure connection acts as a gateway to your host PC for up to 7 Intermec Bluetooth scanners. The SD61 houses the drivers to interact with the host PC, which means users need only scan the identifying bar code on the scanner to associate to the station and the host PC.

Features

- Easy set up - No need to install new software into your PC or host systems
- Lower acquisition costs - 1 base can connect up to 7 scanners
- Reliable wireless communication through Intermec advanced communication protocol
- Increased productivity and maneuverability by working up to 100m (328 ft) away from the base (open air)
- Investment protection with a wide choice of host connections
- Industrial grade - Intermec's rugged construction is ideal for warehouse & industrial applications
- Experience the flexibility to communicate with the Bluetooth? SD61 and SF51 Intermec Scanners

Environment

- Operating Temperature : -20° C/-4° F to 60° C/140° F
- Storage Temperature : -40° C/-40° F to 70° C/158° F
- Humidity : 95% at 45° /113° F (non-condensing)
- Vibration and Shock protection : 8G, from 10Hz to 500Hz, 2hr/axis, 3 axis
- Drop Survival : 26 drops from 1.2m/3.9ft to concrete
- Sealing : IP53

Physical Characteristics

- Height : 3.6cm (1.4 in.)
- Width : 10.2cm (4 in.)
- Depth : 11.5cm (4.5in.)
- Weight : 150g (5.2oz)

Power

SD61 is powered via a host or universal 5 volt power supply; depending on the cable choice. 75mA at 5V +/- 10%
